We cordially invite you to attend the 6th Conference on Elementary Processes in Atomic Systems, which will be held for the first time in Slovakia at the beginning of July 2014.

CONFERENCE PROGRAMME

The conference programme includes 6 plenary lectures (40+5 mins.), 24 topical lectures (20+5 mins.) and 2 poster sessions mainly focused on processes induced in atoms and molecules:

- photo-processes and laser collisions
- electron(positron)/atom collisions
- collisions with biomolecules
- heavy particles (ion/atom) collisions
- interactions with surfaces
- processes with nano-sized complex systems

LOCAL ORGANIZERS

Prof. Štefan Matejčík, Peter Papp,
